

SUPPLEMENT TO NOVEMBER 1956

MODERN PLASTICS

INDEX TO VOLUME 33

SEPTEMBER—1955 THROUGH AUGUST—1956

Index to MODERN PLASTICS ENCYCLOPEDIA ISSUE is Bound in Each Copy

1	GENERAL INDEX OF TITLES.....	1
2	INDIVIDUAL SUBJECTS.....	4
3	INDEX OF AUTHORS.....	15

Breskin Publications, Inc.

575 MADISON AVENUE

NEW YORK 22, N. Y.

1 GENERAL INDEX OF TITLES

NOTE: For convenience in reference, titles of articles published in the Plastics Engineering and Technical Sections are repeated and grouped separately at the end of this General Index of Titles (p. 3).

A					
	Month	Page		Month	Page
A bigger, better range of resins (editorial).....	September	5	Better catheters	July	188
A method for the interpretation of Brookfield viscosities	November	140	Better plastics housewares	May	112
A report on weigh feeding	March	141	Better than rubber	March	199
A simple, reliable impact test	April	149	Better than wood	September	197
Acetate bushings	November	207	Big boat—no mold	March	104
Acrylic light fixture	August	192	Big market—big challenge	October	85
Acrylic tanks	February	196	Bigger plastics years to come (editorial).....	January	5
Acrylic lenses	November	215	Blown acrylic for air ducts	August	104
Acrylic lid	September	203	Boats	January	102
Acrylics	January	88	British Plastics Exhibition	September	113
Advances in thermoset molding	May	145	Building construction	January	98
All plastic but the needle	February	88			
And now—all-plastics aerosols	December	97	C		
Appliances	January	111	Casting plastics sheets	July	109
Argentina: restrictions lifted	June	192	Cellulosics	January	85
Around the world in plastics	May	105	Chaos in the premix market (editorial).....	August	5
Asbestos reinforcements	July	140	Chlorination system	December	199
At the 7th National Plastics Exposition and Annual S.P.I. Conference	July	97	Choosing adhesives for plastics	May	121
Automatic molding of coil forms	March	138	Closure strips	February	206
Automatic sheet forming	August	119	Coils in epoxy	March	201
Automobiles	January	108	Concentration of shear	April	216
Automotive plastics: 1955	April	114	Confusion compounded (editorial).....	December	5
Automotive plastics: 1956	March	89	Cutting costs on a cover	June	195
B			D		
Balsa cores for reinforced plastics structures	May	131	Decorative vinyl coverings	March	202
Bearing caps	March	208	Design and operation of crosshead sheeting dies ...	August	127
Benelex: expansion based on research	August	110	Disneyland in miniature	September	93
			Durable decoys for ducks	April	110

E	Month	Page		Month	Page
Electrical and electronic equipment	January	113	Motor housing	December	187
Electrostatic charges in plastics	February	127			
Engineering progress in 1955	January	115	N		
Epoxy-ether resins: a new technology	April	174	New approach to plastics structures	December	92
Expanded styrene novelties	December	190	New architectural concepts in plastics house	December	188
Extruded panels	May	210	New structural strength in refrigerators	October	106
Extrusion dies and take-off equipment	December	125	1955—Record year in plastics, 1956—the probabilities	January	78
			No aid to an enemy	February	96
F			No easy years ahead! (editorial)	June	5
Fabrics with depth	April	226	Nylon	January	96
Film editor housed in phenolic	May	117	Nylon bellows	June	343
Film pockets	February	203	Nylon disks in assembler device	May	221
Flexible engraving stock	October	90	Nylon sells a mixer	April	107
Flexible foams—present and future	September	114			
Flexible hairbrush features plastic springs	October	110	O		
Flip to close	April	119	One-piece bobbin	October	212
Floating polyethylene	July	184	Our new appearance (editorial)	February	5
Fluorothene parts	December	195	Oxygen tent	June	336
Food bins in styrene	March	113			
Formed for lighting	April	108	P		
Formed sheet styrene copolymers invade metal stamping field	December	108	Package is air pillow	March	207
Forming teflon for electrical uses	September	134	Packaged in molded polystyrene	November	92
France: advanced techniques	May	96	Packaging	January	100
From design to 3D display	November	101	Paste extrusion	February	115
Furniture	January	103	Patch it with plastics	December	98
Furniture with a future	November	104	Phenolic circuit sections	June	334
			Phenolic heater grille	April	223
G			Phenolic laminates	January	84
Glass-polyester washing machine parts	July	187	Phenolic laminate for golf club heads	October	210
Grading of polyethylene by ZST test	March	167	Phenolic resin process design	February	139
Great Britain: new power + new materials	June	188	Phenolics	January	79
			Photo-sensitive vinyl	December	105
H			Planned daylighting	December	94
Have you looked at vinyl dispersions lately?	November	106	Plastic coating applied inside pipe	September	207
Hearing glasses	July	95	Plastic greenhouse	December	192
Heat-resistant methylstyrene polymers	March	163	Plastic in art	February	200
High-pressure air in reinforced plastics bottles	October	137	Plastic penthouse	February	92
Highly filled fibrous glass-reinforced polyester molding compound	November	133	Plasticizer production, 1954	September	97
History-making hammer handle	October	97	Plastics applications in the years ahead	June	164
Housewares	January	106	Plastics engineering in the years ahead	June	179
Housings	January	109	Plastics—engineering materials	July	127
How much line is out?	August	115	Plastics for disposables (editorial)	April	5
			Plastics house competition	March	198
I			Plastics in the years ahead	June	149
Illusion of motion in plastics	May	110	Plastics materials in the years ahead	April	166
Improved acetate for broader usage	October	94	Plastics move into blue chip markets	June	155
Improved ester-plasticized polyvinyl chlorides	May	164	Plastics reinforcement in tension	January	97
Instrument door	April	229	Polyamide-11 in the electrical field	March	156
Integral lubrication of polystyrene	October	141	Polyamide-epoxy resins	August	151
Interlocking vinyl floor tile	July	190	Polyamides based on ε-caprolactam	June	238
International plastics meetings	October	105	Polyester pallet	September	158
Israel: study in versatility	May	101	Polyethylene	December	200
Italy: engineering advance	July	90	Polyethylene clip	January	95
			Polyethylene grabs the spotlight	May	213
J			Polyethylene grabs the spotlight	September	85
Japan: petrochemical future	May	90	Polyethylene grabs the spotlight	October	100
			Polyliner improves injection molding	February	109
K			Polystyrene	January	89
Know-how: two-way street (editorial)	May	5	Portable coin sorter	June	183
			Pothole cover	May	215
L			Potted in epoxy	September	209
Lamp holders	June	338	Potting and encapsulation	April	125
Light switch	May	216	Precision fabrication makes versatile calculators	March	108
Lighting	January	103	Prestressed reinforced plastics	April	151
Look to plastics linings	December	85	Progress in polymerization (editorial)	November	5
Low-Coat molds for short runs	November	121	Protection for jet plane fuel cells	October	122
Luxury in a carrying case	March	102	Protective coatings for polystyrene	June	252
			Putting the bite on styrene	September	118
M					
Machines for thermoplastics	January	133	Q		
Making inflatables continuously	October	127	Quality control for custom molders	November	117
Marine bumpers	June	332			
Market factors affecting plastics in the years ahead	June	150	R		
Market view of vinyl foam	May	113	Reinforced abrasives	September	140
Materials handling	January	105	Reinforced acrylic	June	337
Measurement of plasticizer absorption rate of polyvinyl chloride	October	160	Reinforced molding compounds—Part I	August	91
Mechanical action of flexible foams	August	139	Reinforced plastic shelter quickly erected	November	202
Metal-bonding adhesives for high-temperature service	June	225	Reinforced plastics conference	February	178
Methods of study of high-temperature properties of plastics	September	151	Reinforced plastics in the "Flying Disc"	February	95
Methods of testing modified polystyrenes for use in telephone housings	November	150	Reinforced plastics pressure vessels	December	146
Mighty beauty	November	85	Reinforced plastics school desks	April	228
Miniature car	May	222	Reinforced polyester premises	November	125
Miniature vacuum forming machine	October	204	Repair work	January	99
Modern obsolescence (editorial)	July	5	Resins up a billion pounds	January	75
Molded bottle label	September	102	Reverse sticks to plastics	March	95
Molded plastisol battery tester	July	105	Rice protection	March	205
Molding and welding polyethylene	October	119	Rigid phenolic foam	July	183
More molds in the making (editorial)	November	5	Roll bending	April	138
			Room-temperature bonding	March	126
			Rotational molding of plastisols	September	123
			Rugged doors	November	98
			S		
			Safety markers	June	344
			Sandwich panels	June	352

	Month	Page
Shower enclosure	November	210
Signs and displays	January	110
Silicone alloys	June	207
Simplified drive for injection machines	July	118
Six billion feet in 1955!	July	85
Small-fry specials	November	110
Small sight	February	105
Soil stabilization by synthetic resins	October	152
Solar battery uses plastics	February	104
Soldering gun handles	February	199
S.P.E. Technical Conference	January	131
Spool holder	February	204
Sporting goods	January	112
Sports car body and top in plastics	September	198
Sprayed-on roof	September	201
Styled for strength	December	107
Styrene cases for better batteries	June	186
Styrene foam float	April	219
Styrene foam float	November	205
Styrene machine gun shoots styrene bullets	August	97
Styrene patterns for investment casting	October	128
Styrene TV mask	October	209
Success in accessories	April	99
Swimming pools	January	104
Swimming pools for mass markets	September	98

T

Tableware	January	101
Tensile-impact	June	199
Test for degradation—Part I	March	143
Test for degradation—Part II	March	148
The biggest thing in plastics	October	98
The case of the Schick Shaver	February	100
The cause and cure of unrealistic quotes on plastics parts	July	81
The pitfall of price (editorial)	March	5
The year 1955 in review	January	135
Thermal properties of laminates	August	158
Threadless closure	August	193

	Month	Page
This year's toys are better (editorial)	October	5
Toilet kit	August	191
Torsional properties of plastics	December	137
Tough new thermoplastic	September	104
Toward better building (editorial)	October	5
Toys	January	107
Trapped-sheet forming	March	117
Tripod turns to plastics	February	87

U

Urea and melamine	January	84
Urea housing, polyethylene case	November	100

V

Valve spindle	June	351
Vinyl chloride	January	92
Vinyl insoles	April	221
Vinyl lining prevents water seepage	July	180
Vinyl plus reinforced plastics	December	115
Vinyl sheet gets new backing	November	91
Vinyl sheeting makes better basket	October	214
Vinyl valve	October	206
"Voice boxes" for talking toys	March	99

W

Weathering of plastics	May	157
Welding kit	September	204
West German plastics exposition	January	178
What vinyl is doing for conveyor belts	October	112
What's new in reinforcements	February	81
Why frames of extruded acetate?	May	106
Why plastics in furniture?	August	98
Wide world of plastics	May	89
World's largest pressure moldings	August	106

X

X-ray unit	June	354
------------------	------	-----

PLASTICS ENGINEERING

	Month	Page
A report on weigh feeding	March	141
A simple, reliable impact test	April	149
Advances in thermostat molding	May	145
Automatic molding of coil forms	March	138
Automatic sheet forming	August	119
Balsa cores for reinforced plastics structures	May	131
Casting plastics sheets	July	109
Choosing adhesives for plastics	May	121
Design and operation of crosshead sheeting dies	August	127
Engineering progress in 1955	January	115
Extrusion dies and take-off equipment	December	125
Forming Teflon for electrical uses	September	134
High-pressure air in reinforced plastics bottles	October	137
Low-cost molds for short runs	November	121
Machines for thermoplastics	January	133
Making inflatables continuously	October	127
Molding and welding polyethylene	October	119
Paste extrusion	February	115
Polyliner improves injection molding	February	109
Potting and encapsulation	April	125
Protection for jet plane fuel cells	October	122
Quality control for custom molders	November	117
Reinforced abrasives	September	140
Reinforced polyester premises	November	125
Roll bending	April	138
Room-temperature bonding	March	126
Rotational molding of plastisols	September	123
Silicone alloys	June	207
Simplified drive for injection machines	July	118
S.P.E. Technical Conference	January	131
Styrene patterns for investment casting	October	128
Tensile-impact	June	199
Trapped-sheet forming	March	117
Vinyl plus reinforced plastics	December	115

TECHNICAL SECTION

	Month	Page
A method for the interpretation of Brookfield viscosities	November	140
Asbestos reinforcements	July	140
Electrostatic charges in plastics	February	127
Epoxy-ether resins: a new technology	April	174
Grading of polyethylene by ZST test	March	167
Heat-resistant methylstyrene polymers	March	163
Highly filled fibrous glass-reinforced polyester molding compounds	November	133
Improved ester-plasticized polyvinyl chlorides	May	164
Integral lubrication of polystyrene	October	141
Measurement of plasticizer absorption rate of polyvinyl chloride	October	160
Mechanical action of flexible foams	August	139
Metal-bonding adhesives for high-temperature service	June	225
Methods of study of high-temperature properties of plastics	September	151
Methods of testing modified polystyrenes for use in telephone housings	November	150
Phenolic resin process design	February	139
Plastics—engineering materials	July	127
Plastics in water pipes	April	166
Plastics reinforcement in tension	March	156
Polyamide-11 in the electrical field	August	151
Polyamide-epoxy resins	June	238
Polyamides based on ε-caprolactam	September	158
Prestressed reinforced plastics	April	151
Protective coatings for polystyrene	June	252
Reinforced plastics pressure vessels	December	146
Soil stabilization by synthetic resins	October	152
Test for degradation—Part I	March	143
Test for degradation—Part II	March	148
The year 1955 in review	January	135
Thermal properties of laminates	August	158
Torsional properties of plastics	December	137
Weathering of plastics	May	157

2 INDIVIDUAL SUBJECTS

(ab) = Abstract, from *Plastics Digest*; (ma) = Machinery and Equipment; (pl) = *Plasticscope*; (pp) = *Plastics Products*

IMPORTANT: Researchers and other users of this index are cautioned to remember that the annual reviews of engineering progress and of materials, processing, and applications, published in the January issue, are not cross-indexed because of their survey nature. Neither are the monthly departments entitled U.S. *Plastics Patents*,

Production of Plastics Materials, and *Books and Booklets* (except books under the subject heading of "Book Reviews"). Also omitted from this index are those *Plasticscope* items (both Section 1 and Section 2) devoted to company news, personal news, and similar items of timely news value, but not considered as reference material.

A		Month	Page			Month	Page
ABRASIVE WHEELS, PLASTICS BONDED		September	140	ALLYL			
ACRYLICS				Polymerization control in (ab)		April	180
Adhesives for		May	121	ANTI-STATIC			
Air conditioning ducts, automobile		August	104	Process, Katharon (ma)		July	168
Aircraft canopy reinforcing (ab)		November	162	APPLIANCES—See Household, also Kitchen			
Aqua-table (pp)		July	107	ARCHITECTURE			
Automotive applications of		April	114	House, all-plastics concept of		December	188
Casting sheets		July	109	House, S.P.I. plastics		March	198
Cigarette lighter, faces for (pp)		May	118	ART			
Corrugated panels, extruded		February	92	Molding pellets in		February	200
Extruded panels, large		May	210	ASBESTOS			
Gun sight, molded		February	105	Fillers for phenolic		August	106
Hairbrush, flexible		October	110	Reinforcements		July	140
Handbags		April	99	ATOMIC RADIATION—See Irradiation			
Highway emergency signal (pp)		September	120	AUTOMATION			
Instrument door		April	229	Progress in		June	180
Lenses, slide viewer		November	215	Sheet forming, automatic		August	119
Lantern, outdoor decorative (pp)		August	117	AUTOMOTIVE			
Light fixture, fluorescent		August	192	Air conditioning ducts, blown acrylic		August	104
Methacrylate β -vinylxyethyl (ab)		February	154	Cars, miniature reinforced plastics		May	222
Playing card box lid		September	203	Compass, plastics parts for (pp)		December	112
Properties, study of high temperature		September	151	Foamed plastics seats in 1956		March	89
Reinforced glazing panels		June	337	Highway emergency signal (pp)		September	120
Review of		January	88	Interiors, plastics in (pl)		May	246
Salad bowl, hand carved (pp)		November	114	Plastic foams in 1956		March	89
Shoe heels		April	99	Plastics in		April	114
Solar battery uses of		February	104	Plastics in future		June	167
Sports car top		September	198	Plastics in 1956		March	89
Stretched sheet, production of (ab)		April	178	Premix compounds in component production		August	91
Sulfonic acid derivatives in (ab)		June	275	Progress in		January	108
Tanks, transformer testing		February	196	Reinforced plastics in 1956		March	89
Torsional properties of		December	137	Sports car body (reinforced plastics) and top (acrylic)		September	198
Viscoelasticity of (ab)		September	171	Thermometer, butyrate window (pp)		November	114
Walls, tongue-and-groove sheets for		February	92	AVIATION—See Aircraft			
Windows, louver		December	94	B			
ADHESIVES				BATHROOM ACCESSORIES—See Household			
Adhesion, Russian studies of (ab)		March	172	BATTERIES			
Bond strength of (ab)		April	182	Automobile, styrene cases for		June	186
Bonding with (ab)		February	154	Plastics in (ab)		January	158
Epoxy based, room temperature		March	126	Polyethylene in		March	169
Epoxy, new (ab)		July	152	Solar, plastics in		February	104
High temperature metal bonding		June	225	BOATS			
Metal bonding (ab)		July	155	Bumpers, extruded polyethylene		June	332
Metal bonding, high temperature		June	225	Hull, 42 ft. reinforced plastic		March	104
Metal joints, adhesive bonded (ab)		January	160	Light, streamlined butyrate housing for (pp)		March	114
Plastics, for		May	121	Oar, hollow reinforced plastics (pp)		May	118
Room temperature, epoxy based		March	126	Progress in		January	102
Selection of, for plastics		May	121	Skiff, small formed styrene (pp)		July	106
Thermoplastic, strip (pl)		December	240	Speedometer for, butyrate (pp)		December	112
Types and properties of (ab)		August	166	BONDING—See Adhesives, also Heat Sealing			
AGRICULTURE				BOOK REVIEWS			
Greenhouse roofs, reinforced plastics		December	192	American Architects' Directory, edited by Dr. George S. Koyl		August	180
Plant feeder, molded butyrate		November	115	American Imports, by Don D. Humphrey		January	168
Soil stabilization, resins for		October	152	A.S.T.M. Standards 1955, Part 6		June	296
AIR CONDITIONING				Modern Plastics Index			
Automobiles, acrylic ducts for		August	104				
AIRCRAFT							
Canopy reinforcing, acrylic-fabric (ab)		November	162				
Drop-tanks, phenolic molded (ab)		November	162				
Fuel tanks, droppable reinforced plastics		February	96				
Jet plane fuel cells, reinforced plastics liners for		October	122				
Structures, plastics in (ab)		May	176				
ALKYDS							
Degradation of, photo-oxidative (ab)		November	163				
Isomers in, determination of (ab)		March	172				
Phthalic anhydride in, determination of (ab)		March	173				
Premix compounds, survey of		August	91				
Styrenation of (ab)		December	150				
Varnishes (ab)		November	163				

BOOK REVIEWS (Continued)

	Month	Page
A.S.T.M. Standards in Building Codes	September	186
Automatic Process Control for Chemical Engineers, by Norman H. Ceaglske	May	196
British Plastics Yearbook, 1956	July	170
Cellulose and Cellulose Derivatives Part III, edited by Emil Ott, Harold M. Spurlin, and Mildred W. Grafflin	March	186
Chemical Engineering Catalog, 1955-56	March	186
Chemical Market Research in Practice, edited by Richard E. Chaddock	August	180
Chemical Plant Plant Practice, by Donald G. Jordan	May	196
Chemical Statistics Handbook	October	188
Designing for Industry, by F. C. Ashford	January	168
Developing and Selling New Products	November	182
Electrical Insulation and Dielectrics—1955	March	186
Handbook of Barrel Finishing, by Ralph F. Enyedy	January	168
Handbook of Engineering Materials, by Douglas F. Miner and John B. Seaton	December	176
High Polymers: Vol. X, Polymer Processes, edited by C. E. Schildknecht	June	296
High-Temperature Technology, edited by I. E. Campbell	August	180
Industrial and Manufacturing Chemistry, Part I, Organic, by Geoffrey Martin; seventh edition revised by Edward I. Cooke	October	188
Instruments for Measurements and Control, by Werner G. Holzbock	December	176
Kunststoff Verarbeitung, by Karl Mienes	May	196
Kunststofftechnisches Wörterbuch, Vol. 1, English-German, by A. M. Wittfoht	June	296
Legal Problems in Engineering, by Melvin Nord	June	296
L'ère Des Matières Plastiques, by M. Fournier	January	168
Matières Plastiques, by J. Jousset	October	188
Matières Plastiques Procédés de Transformation	August	180
Metal Finishing Guidebook, 1956 Edition	March	186
Modern Physics: A Textbook for Engineers, by Robert L. Sproull	April	202
Our Smallest Servants	April	202
Plastics for Corrosion-Resistant Applications, by Raymond B. Seymour and Robert H. Steiner	November	182
Plastics in Building, by E. F. Mactaggart and H. H. Chambers	December	176
Plastics in Housing	October	188
Plastics in the Service of Man, by V. E. Yarsley and E. G. Couzens	July	170
Plastics Progress 1955	May	196
Principles of Mass and Flow Production, by Frank G. Woolard	November	182
Process Engineering Economics, by Herbert E. Schwyer	October	188
Prüfungsbuch für Kautschuk und Kunststoffe, by Karl Frank	January	168
Safety in Industry, by D. I. Macfarlane	February	170
Salt and Water, Power and People, by Robert E. Thomas	April	202
Simposio Internazionale di Chimica Macromolecolare	July	170
Symposium on Methods of Testing Building Construction	September	186
The Chemistry of Phenolic Resins, by Robert W. Martin	July	170
The ISCC-NBS Method of Designating Colors and a Dictionary of Color Names, by Kenneth L. Kelly and Deane B. Judd	April	202
Vapor Plating, by C. F. Powell, I. E. Campbell, and B. W. Gonser	October	188
BOTTLES		
Label, molded butyrate	September	102
Polyethylene, deformation of (ab)	March	171
BRITISH PLASTICS EXHIBITION	September	113
BRUSHES		
Hair, nylon and acrylic in	October	110
Shampoo, polyethylene (pp)	October	117
BUILDING APPLICATIONS		
Corrugated sheet closures, vinyl	February	206
Curtain walls, sandwich	June	352
Dome, 55 ft. geodesic	October	98
Doors, honeycomb cores and vinyl-aluminum skins for	November	98
Drain pipe clips, polyethylene	May	213
Geodesic dome, reinforced plastics	October	98
Greenhouse roofs, reinforced plastics	December	192
House, all-plastics concept of	December	188
Panels, foam core sandwich	December	92
Plastics house competition, S.P.I.	March	198
Plastics for, engineering properties of (ab)	November	163
Plastics in (ab)	February	156
Plastics in (editorial)	October	5
Plastics in future	June	164
Plastics in, symposium on	November	160
Polyethylene in (pl)	May	246
Progress in	January	98

BUILDING APPLICATIONS (Continued)

	Month	Page
Roof, sprayed-on vinyl	September	201
Walls, tongue-and-groove acrylic sheets for	February	93
Windows, louver acrylic	December	94
BUSINESS MACHINES		
Housings for, vinyl-reinforced plastics	December	115
C		
CALCULATORS, PRECISION FABRICATION OF	March	108
CALENDERING		
Developments in vinyl (ab)	November	158
Gage control by roll bending	April	138
Roll bending, gage control by	April	138
Progress in	June	407
Vinyl sheet, production of supported	November	91
CASTING		
Electronic components, protection of (ab)	August	168
Glass plate method of	July	109
Machine for, automatic (ab)	April	178
Patterns for investment, styrene	October	128
Polyester rigid parts (ab)	April	180
Polyethylene, centrifugal (ab)	November	158
Polymerization control in (ab)	April	180
Sheets, methods of	July	109
CELLULAR PLASTICS—See Foamed Plastics		
CELLULOSE ACETATE		
Adhesives for	May	121
Bushings, electrical insulating	November	207
Eye-glass frames, extruded	May	106
Handbags	April	99
Improved	October	94
Jewelry	April	99
Recording tapes	July	85
Torsional properties of	December	137
Vanity cases	April	99
CELLULOSE ACETATE BUTYRATE		
Automotive applications of	April	114
Boat light, housing for (pp)	March	114
Bottle label, molded	September	102
Broom hanger, molded parts for (pp)	May	119
Coin sorter parts, molded	June	183
Compass, automobile (pp)	December	112
Furniture uses of	August	96
Golf ball retriever (pp)	February	107
Hobby kit, optical (pp)	June	197
Label, molded bottle	September	102
Plant feeder, molded (pp)	November	115
Signs, motion in	May	110
Spectacle-frame hearing aid	July	95
Speedometer, boat (pp)	December	112
Thermometer, auto-window (pp)	November	114
Torsional properties of	December	137
Tripod, parts of	February	87
Waxer, handle for automatic floor (pp)	June	196
CELLULOSE NITRATE		
Adhesives for	May	121
Handbags	April	99
CELLULOSE PLASTICS—See also specific materials		
Burning behavior of (ab)	March	172
Propionate, new production of (pl)	December	238
Review of	January	85
CEMENTS—See Adhesives		
COATINGS

STATISTICS

	Month	Page
Export	January	80
Industry, over-all	January	75
Machines for thermoplastics	January	133
Melamine consumption	June	161
Molding and extrusion materials, sales of	January	83
Phenolic consumption	June	160
Phenolic molding powder, sales of	January	81
Plasticizer production, 1954	September	97
Polyethylene consumption	June	162
Present and future	June	156
Products, growth of	January	86
Styrene consumption	June	158
Styrene molding material, sales of	January	92
Trends, comparative industry	January	77
Urea consumption	June	161
Vinyl consumption	June	159
World production of plastics	January	135

STYRENE

Adhesives for	May	121
Alpha methyl (pl)	September	246
Battery cases, automobile	June	188
Beta radiation, effects of (ab)	September	171
Bird houses, formed sheet (pp)	September	121
Blends, -acrylonitrile (ab)	July	150
Canister set, two-tone	May	112
Coatings for, protective	June	252
Consumption statistics	June	158
Copolymers, properties of (ab)	April	178
Dentures, injection molded	September	118
Expanded, novelties	December	190
File case (pp)	October	117
Float, foam	November	205
Flower pots, foam (pp)	July	106
Foam, applications of moldable (ab)	March	171
Food bins, tilting	March	113
Formed part for textile machine	December	108
Formed sheet replacement for metal stampings, Furniture uses of	December	108
Game inserts, vacuum formed (pp)	August	98
Hampers and baskets, use in (pp)	April	120
Ice containers, molded expandable (pp)	June	196
Injection molded patterns for investment casting	February	106
Integral lubrication of	October	128
Investment casting patterns	October	141
Kraalastic, properties and applications of (ab)	October	128
Life preserver, foam	July	150
Light diffuser (pp)	April	210
Lighting fixtures, formed sheet	April	122
Map, vacuum formed (pp)	April	108
Methylstyrene polymers, heat resistant	August	116
Model airplane kit, formed parts for (pp)	March	163
Modified, testing	November	113
Molding material, sales of	November	150
Molding pellets, new art form	January	92
Molecular weight measurements of (ab)	February	200
Oriented sheet, trapped-sheet forming of	October	168
Packages, types of molded	March	117
Phonograph, parts for toy	November	92
Photo slide case and viewer (pp)	March	99
Planter, self-watering	April	123
Review of	May	112
Sewing machine guide (pp)	January	89
Sewing machine parts, toy	April	120
Sheet formed box inserts	February	88
Skiff, small formed (pp)	September	197
Spectacle-frame hearing aid	July	106
Step-on can	July	95
Tape measure housing (pp)	May	112
Toilet kit, formed sheet	September	121
Torsional properties of	August	191
Toy machine gun	December	137
Toy, rock-and-roll pull (pp)	August	97
Trapped-sheet forming	October	116
Tripod, parts of camera	March	117
Trolling device, fishermen's	February	87
TV mask, largest molded	August	115
	October	209

SWIMMING POOLS FOR MASS MARKETS..... September 98

SWIMMING POOLS

Chlorination system, polyethylene baskets for ..	December	199
Plastics in future	June	178
Progress in	January	104
Types of plastics	September	98

T

TABLEWARE-See Dishware, also Household

TAPE

Magnetic, Mylar	November	85
Magnetic recording, plastics in	July	85

TEFLON

Adhesives for	May	121
Bearings of woven (pl)	July	204

TEFLON (Continued)

Bonding	September	134
Forming, for electrical uses	September	134
Frictional coefficient of (ab)	June	267
Liners, container	December	85
Paste extrusion of	February	115

TELEVISION

Mask, largest molded styrene	October	209
Plastics in future	June	171

TESTING

Acidity of solid surfaces, measuring (ab)	June	273
Acrylic tanks for, transformers	February	196
Arc resistance (ab)	November	170
Chambers, Hudson Bay environmental (ma)	March	178
Coated fabrics (ab)	April	184
Creep tests, machine for (ab)	May	177
Cure, determining degree of (ab)	September	173
Degradation, testing for	March	143
Dispersion meter, using (ab)	February	159
Fabric stiffness, Drape-Flex (ma)	August	178
Fatigue of nonrigid plastics (ab)	November	168
Flow of thermosetting components (ab)	October	173
Foams, mechanical action of	August	139
Gasket materials, stress relaxation of (ab)	December	162
Hardness tester, British (ab)	October	170
Hardness tester, Tinius Olsen (ma)	March	178
Heat distortion tester, Tinius Olsen (ma)	May	193
Impact, in tension	April	149
Impact, in tension	June	199
Interface stresses in reinforced plastics, measuring (ab)	October	168
Lacquers, analysis of (ab)	January	160
Laminates, thermal properties of	August	158
Moisture permeability (ab)	May	177
Polyethylenes, methyl content in (ab)	June	271
Properties, study of high temperature	September	151
Specimens, preparation of flexible (ab)	November	170
Structure of reinforced plastics, studying (ab) ..	February	159
Styrenes, modified	November	150
Sunlamps in aging (ab)	July	156
